

International Workshop on Operator Theory and Applications, IWOTA 2015 Tbilisi, Georgia, July 6 to 10,, 2015

Description, venue and date: The IWOTA workshops bring together mathematicians and engineers working in operator theory and its applications to related fields, ranging from classical analysis, differential and integral equations, complex and harmonic analysis to mathematical physics, mathematical system and control theory, signal processing and numerical analysis. IWOTA gathers leading experts from all over the world for an intensive exchange of information and opinion, and for tracing the future developments in the field.

A short history of IWOTA workshops, founded by Israel Gohberg, and the list of its managing body, the Steering Committee, can be found on the WEB www.cs.vu.nl/~kaash/iwota.htm

The 26-th International Workshop on Operator Theory and Applications (IWOTA 2015) will be organized in Tbilisi, Georgia, July 6 to 10, 2015 (arriving day July 5, departure day July 11). The venue of the conference will be chosen later among universities in Tbilisi.

Program of the conference: The daily schedule will consist of one 60 minute plenary talk and four 50 minute invited (semi-plenary) talks in the morning from 9 to 13 o'clock and forty to sixty 25 minute contributed talks in 7-10 parallel thematic sessions from 15 to 19 o'clock every day, during 4 working days. Wednesday July 8 will a day of excursions. Poster sessions might be organized as well. The list of plenary and invited speakers will be published in the nearest future on the conference WEB.
